

"WHEN YOU PLAY A  
MATCH YOU HAVE TO  
TALK..."

## FOOTBALL HAS CHANGED MY LIFE

A man emphasises how being involved with the Good Mood Football League has changed his life around. He speaks of how he has developed his technical football skills alongside his ability to communicate. He enjoys the level of control he feels when playing football and talks about how the coaches and staff are also passionate too. He is passionate about playing in the league.

## THE #SOFTANDFLUFFY PROJECT

Creative Minds, People's Voice Media and the University of Huddersfield have been working with people from Barnsley, Calderdale, Kirklees and Wakefield to gather stories about the role that creativity plays in people's lives. These stories have highlighted the importance of activities such as art, performance, sports and the outdoors in supporting people's wellbeing and have been curated into a short film, a series of posters and a report. The project was funded by Q Labs.

You can view all of the stories at: [www.communityreporter.net/creativitywellbeing](http://www.communityreporter.net/creativitywellbeing)
