

University Repository Form

This form is to be completed by the PGR.

Please complete either:

Section A to make your thesis publicly available

OR

Section B for restricted access

When submitting your thesis in the University of Huddersfield repository, this will make it available for anyone to read, save copies, and share. This does not affect your right to publish your work elsewhere.

If you are happy for your work to be made publicly available, please complete **Section A**. Unless you have a specific reason not to make your work publicly available, this option will be suitable for most theses.

If you need your work to be kept private, either temporarily (for example, to protect commercial interests) or indefinitely (usually because it contains confidential information), please complete **Section B**.

Important note in relation to abstracts:

The metadata (author and title) and abstract will be made publicly available even if the thesis is embargoed.

If there is confidential and/or commercially sensitive material within the abstract, then any such information should be removed before the abstract is submitted, or an alternative abstract should be submitted.

Section A: Deposit Agreement for Research Degree Theses

Covered Work

I, **Anna Waszak**, "The Depositor", would like to deposit my research degree thesis entitled **Divergence or Continuity? An Indicative Examination of Nineteenth-Century Approaches to 'Baroque' Repertoire in Annotated Editions**, hereafter referred to as the "Work", in the University of Huddersfield Repository. The Work is covered by this agreement and when I deposit my Work, whether personally or through an assistant or other agent, I agree to the following:

Non-exclusive Rights

Rights granted to the University Repository through this agreement are entirely non-exclusive and royalty-free. I am free to publish the Work in its present version or future versions elsewhere.

I agree that the University Repository administrators or any third party with whom the University Repository has an agreement to do so may, without changing content, translate the Work to any medium or format for the purpose of future preservation and accessibility.

Deposit in the University Repository

I understand that work deposited in the University Repository will be accessible to a wide variety of people and institutions - including automated agents - via the World Wide Web. The British Library Electronic Theses On-line System (EThOS) will also harvest data about my thesis.

I understand that once the Work is deposited, metadata will be incorporated into public access catalogues. This citation to the Work will always remain visible, although the author retains the right to update the Work.

Removal of the item from the University Repository may be possible after discussion with the University Repository Team, who shall also make efforts to ensure removal of the Work from any third party with whom the University Repository has an agreement.

I agree as follows:

- That I am the author or co-author of the Work and have the authority on behalf of the author or authors to make this agreement and to hereby give the University of Huddersfield the right to make available the Work in the way described above.
- That I have exercised reasonable care to ensure that the Work is original, and does not to the best of my knowledge break any UK law or infringe any third party's copyright or other Intellectual Property Right.
- The University of Huddersfield does not hold any obligation to take legal action on behalf of the Depositor, or other rights holders, in the event of breach of intellectual property rights, or any other right, in the material deposited.
- That I understand that the decision to deposit the Work is dependent upon the conferment of my award and is entirely at the discretion of the University of Huddersfield.
- That I am responsible for ensuring that the University of Huddersfield is provided with the final version of the Work and that the University of Huddersfield cannot be held responsible if an incorrect version of the Work is published.
